

6th Grade Pre-Algebra Homework Expectations

(keep this in your math binder)

- Name, date, and class period in the top right corner
- Assignment should be listed (page and problem numbers) on the title line
- Number problems vertically
- Copy every problem from the book
- Show all work with the problem (not on a separate sheet of paper or in a random spot on your paper)
- Circle or box in answers
- Use a different colored pencil or pen to check your answers with the answers in the back of the book **before you come to class** (answers start on page 547)
 - You should retry any problems you got incorrect.
 - If you don't know how to do a problem, you can write it on the whiteboard the following day and we will go over it in class. You should make corrections in class when we go over it.
